## About The Program

The goal of our program is to provide an organized environment for students to excel in developing self-confidence, self-initiation, self-discipline, teamwork and creativity in their learning journeys.

To augment students learning at school, we provide supplementary materials. In addition, special workshops and Enrichment courses are to broaden students' horizon, interest and potential.

For students in extended hour, we also include a "twice a week library visit" to build strong readers; and an "outdoor activities hour" at nearby park to build strong bodies.
